

CONTENT

TOPIC 1. INTRODUCTION TO THE DISCIPLINE “METHODOLOGY OF SCIENTIFIC RESEARCH ORGANIZATION”	5
1.1. <i>The place and role of science in assuring the mankind's socio-political and socio-economic development</i>	6
1.2. <i>Scientific inventions that have changed the world</i>	12
1.3. <i>Approaches to the interpretation of the categorical content of the definition of “science”</i>	18
<i>Test questions for self-checking on topic 1</i>	20
 TOPIC 2. BASIC CATEGORIES OF METHODOLOGY OF OF SCIENTIFIC RESEARCH ORGANIZATION: GENERAL CHARACTERISTICS OF THE CONTENT AND FEATURES OF ITS MANIFESTATION	21
2.1. <i>Approaches to the interpretation of the categorical content of “methodology”. The subject of methodology studies</i>	22
2.2. <i>System, levels and classification groups of methodology. Methodology’s functions in science</i>	27
2.3. <i>Approaches to the interpretation of the category of “scientific research”</i>	29
<i>Test questions for self-checking on topic 2</i>	32
 TOPIC 3. CLASSIFICATION (TYPOLOGIZATION) OF SCIENTIFIC RESEARCHES	33
3.1. <i>Classification of sciences</i>	34
3.2. <i>Classification of scientific researches and characterization of the content of the main classification groups</i>	45
<i>Test questions for self-checking on topic 3</i>	49
 TOPIC 4. DIALECTICS OF UNITY OF SCIENTIFIC APPROACHES, THE PRINCIPLES AND METHODS IN THE FRAMEWORK OF SCIENTIFIC RESEARCH	51
4.1. <i>Approaches to scientific knowledge</i>	52
4.2. <i>The principles of scientific knowledge</i>	57
<i>Test questions for self-checking on topic 4</i>	67
	70

TOPIC 5. THE METHODS OF SCIENTIFIC RESEARCHES

<i>5.1. The methods of scientific researches: categorical content of definition interpretation</i>	71
<i>5.2. General classification of scientific research methods</i>	74
<i>5.3. General characteristics of the main methods of scientific research</i>	77
<i>Test questions for self-checking on topic 5</i>	82

TOPIC 6. INFORMATION SUPPORT OF SCIENTIFIC RESEARCH

	84
<i>6.1. Documentary sources of information</i>	85
<i>6.2. Kinds of scientific documents</i>	88
<i>6.3. Reference documents and standards</i>	98
<i>6.4. Organization of examination of scientific texts</i>	107
<i>6.5. Informational and bibliographic sources of information</i>	110
<i>6.6. Technique of working with special literature</i>	114
<i>6.7. Digital search for scientific information</i>	118
<i>Test questions for self-checking on topic 6</i>	120
